Six months after graduating almost two thirds of mathematics graduates are in employment or combining work and further study. A quarter of mathematics graduates are in further study. The top job titles for mathematics graduates are business professional, finance and investment analyst and adviser, and chartered or certified accountant.

Frontmatter - 101 Careers in Mathematics

Many mathematics students want to help people; they just need to find the best path to channel their abilities. Arthur Staddon, M.D., took his skills in math and science, combined with an interest in problem solving, and built a successful career as a hematologist-oncologist at Penn Medicine.

101 Careers in Mathematics | MAA Math Career Resource Center

The "101 Careers" of the title is best regarded as meaning "lots of careers"; even the first edition had more than 101 profiles. Counting careers is also a little funny; they don't match up one-to-one with people. As many of the profiles demonstrate, many people have more than one career.
