Futaba Receivers - Nexus Modelling Supplies

Then, if you felt like changing to 2.4Ghz later, you could pop in a 2.4GHz module and buy some matching receivers. Until you'd switched all your systems over to 2.4GHz you could simply swap the transmitter module to suit the model you were flying (2.4GHz or 35MHz). Note that I have several 72MHz systems and a couple of 2.4GHz systems.

Converting a 35mhz Futaba T7CP radio transmitter to use a FrSky 2.4GHz external module Futaba 35mhz 7 channel receiver. Used: An item that has been previously used. The item may have some signs of cosmetic wear, but is fully operational and functions as intended. 2 4 Ghz 35mhz Futaba Fc 18 - v1docs.bespokify.com

Have read about DIY kits for converting older non module-ized transmitters to modern 2.4GHz systems. I have an old Futaba Challenger 35Mhz 6 channel set that I inherited, so combination of that and an OrangeRX DSM DIY module at £25 seemed a good way of getting an extra transmitter out of something that is otherwise a bit obsolete.

Ripmax - Futaba Crystals - 35Mhz FM

Futaba R7008SB Receiver (S-Bus) (HV) 2.4GHz . The Futaba R7000SB is a FASSTest telemetry enabled receiver, a high-voltage design that operates up to 8 channels using the 8

standard PWM outputs or up to 18 channels (16 proportional + 2 digital) using the S-Bus port. That means a simpler setup and full support for S-Bus and S-Bus2 servos.

Converting a Futaba 35MHz Transmitter to 2.4GHz - Hints ...

2 4 Ghz 35mhz Futaba Those 2.4GHz Futaba modules are only for transmitters that use a plug in module, and I don't believe the 6EX uses a plug in module. There would be two ways to convert the 6EX to 2.4GHz. One way is to open the 6EX, locate the proper signals and solder connections between the 6EX and the 2.4GHz module.
