Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

Why Did Mercedes Recommend Only its Own Glass for ...

The automotive industry in New Zealand supplies a market which has always had one of the world's highest car ownership ratios. The distributors of new cars are essentially the former owners of the assembly businesses. At the dealership level they have maintained their old retail chains in spite of the establishment of the many new independent businesses built since the 1980s by specialists in ...
