Geometry Teacher's Activities Kit is the fourth practical resource for math teachers co-authored by Judith and Gary Muschla. Their earlier works included The Math Teacher's Book of Lists (Prentice Hall, 1995), Hands-On Math Project with Real-Life Applications (The Center, 1996), and Math Starters! 5-to 10-Minute Activities to make Kids Think, Grades 6-12 (The Center, 1999).

what are the answers to 3-21 The Bigger Quadrilateral ...

A trapezoid is a quadrilateral in which exactly one pair of opposite sides is parallel. In the definition above, it's important to note the word exactly. If a quadrilateral has two pairs of parallel sides, it is not a trapezoid. Instead, it is called a parallelogram, which we'll learn about on another page.
