steelproducts steel joist products - AISC Home

Common sense tells you that large floor joists can carry more load, and spacing joists closer together also increases the load-bearing capacity of a floor. But larger is not always better when builders are constructing a home or adding a room addition. The extra two inches of vertical distance when a floor is framed with 2 x 10 joists rather than 2 x 12s can be quite important, for example.
