CiteSeerX - Document Details (Isaac Councill, Lee Giles, Pradeep Teregowda): The definitions of propositional modal logic are traditionally formulated in the following way. 1 First, a formal language is defined, usually with atomic formulas  $p, q, \dots$  and complex formulas involving the connectives  $\neg, \wedge$  and the operator. Models  $M$  for this language are then defined as triples  $\langle W, R, V \rangle$  in ...

### PROPOSITIONAL | meaning in the Cambridge English Dictionary

The notion of a propositional content plays a central role in contemporary philosophy of language. While the Fregean conception of propositions as mind-independent objects has dominated analytic philosophy, a number of philosophers have approached the notion of a propositional content instead by focusing on cognitive acts.

### A Philosophical Conception Of Propositional

From a philosophical point of view, however, this traditional conception of propositional modal logic has some unsatisfactory features, and in this paper, we shall argue for a different conception. Under the conception for which we argue, propositional modal logic ('ML') is concerned with propositions rather than sentences.

### Propositions (Stanford Encyclopedia of Philosophy)

A Philosophical Conception of Propositional Modal Logic Author Edward N. Zalta Reference Philosophical Topics, 21/2, Fall 1993, 263--281 Abstract The author revises the formulation of propositional modal logic by interposing a domain of structured propositions between the modal language and the models.

### A Philosophical Conception of Propositional Modal Logic ...

The term 'proposition' has a broad use in contemporary philosophy. It is used to refer to some or all of the following: the primary bearers of truth-value, the objects of belief and other "propositional attitudes" (i.e., what is believed, doubted, etc. []), the referents of that-clauses, and the meanings of sentences. One might wonder whether a single class of entities can play all ...

#### **A Philosophical Conception Of Propositional Modal Logic**

This conception of a proposition was supported by the philosophical school of logical positivism. Some philosophers argue that some (or all) kinds of speech or actions besides the declarative ones also have propositional content. For example, yes-no questions present propositions, being inquiries into the truth value of them.

#### **A Philosophical Conception of Propositional Modal Logic**

The notion of a propositional content plays a central role in contemporary philosophy of language. Propositional content makes up both the meaning of sentences and the content of propositional attitudes such as belief. One particular view about propositional content has been dominant in analytic philosophy, namely the Fregean conception of propositions as abstract mind-independent objects that ...
