Decision making This text is designed for graduate level courses in managerial accounting. It makes use of the concept of opportunity cost, and the approach attempts to illustrate the tension created when accounting systems try to serve both decision making and control functions.

Amazon.com: Accounting for Decision Making and Control ...

Decision-making in Management Accounting In management accounting, decision-making may be simply defined as choosing a course of action from among alternatives. If there are no alternatives, then no decision is required. A basis assumption is that the best decision is the one that involves the most revenue or the least amount of cost.
