The long tail is famously good news for two classes of people; a few lucky aggregators, such as Amazon and Netflix, and 6 billion consumers. Of those two, I think consumers earn the greater reward from the wealth hidden in infinite niches. But the long tail is a decidedly mixed blessing for creators.

Ethnography (from Greek ἔθνος ethnos "folk, people, nation" and γράφω grapho "I write") is a branch of anthropology and the systematic study of individual cultures. Ethnography explores cultural phenomena from the point of view of the subject of the study. Ethnography is also a type of social research involving the examination of the behaviour of the participants in a given social ...

Debits and credits occur simultaneously in every financial transaction in double-entry bookkeeping. In the accounting equation,  $\text{Assets} = \text{Liabilities} + \text{Equity}$ , so, if an asset account increases (a debit (left)), then either another asset account must decrease (a credit (right)), or a liability or equity account must increase (a credit (right)). In the extended equation, revenues increase equity ...
