### About APICS | Engineering360

Inventory accuracy isn't something that happens because you check on it once a year or once a quarter. You need to count some amount of your inventory everyday. That's right. Even if it's one part per day — ideally a different part everyday, and one that's high in dollar value, high in volume or critical for customer supply.

### Accuracy

One of the greatest benefits of having an accurate inventory system is that you can plan your purchases accordingly, so you don't have to store more inventory than you need. Determine how much of each product group you need for each business day, and then decide how often you will restock (weekly, monthly, etc.).
