significant issue in many countries. There are a number of knives available for purchase that are designed to be concealable, or that are disguised as everyday objects e.g. combs, pens and belts. In addition, an experienced knife-user will be able to conceal knives around their person. The aim of the work summarised in this paper was to study the concealment ...

Jonathan Miller - Cranfield University - Milton Keynes ...

Abstract. As mentioned in Chap. 3, terminal ballistics is the scientific discipline concerned with the interaction between projectiles or rounds and the objects they impact; when they impact biological tissue this study is called wound ballistics. This chapter seeks to distil the multiple, complex and interacting factors that influence gunshot wounding (GSW) into a more coherent but ...
