Aging in place is another key concern as people get older. Most older adults want to remain in familiar surroundings—their own home—while maintaining their independence. Yet not every home is equipped to accommodate reduced mobility. Stairs to climb, high shelves to reach, and slippery bathroom floors can make the family home a dangerous place.

Your post resonated with me because this process of losing your independence through disability and aging is a process that a majority of us will experience. It is something that will challenge us because we will have learned to rely on ourselves to the point where it may be hard to accept the assistance of others. Your blog did an excellent ...
