All families are different.
Young people need to understand and appreciate that when it comes to families, they are all different!One of the world's most influential and loved authors of educational children's books, Dr. Sol Gordon has created an uplifting book for young people age four and older who are curious about just what it means to be part of a family.

Lesson 4:All Families Are Different, Yet the Same
All Families Are Different is realistic nonfiction book by Sol Gordon and illustrated by Vivien Cohen. This book describes in detail how families are not made up how they use to be and how every family is unique in their own way. I think that this book is appropriate for older students because of the length of the text on most of the pages.

All Families Are Special: Simon, Norma, Flavin, Teresa ...
An element family is a set of elements sharing common properties. Elements are classified into families because the three main categories of elements (metals, nonmetals, and semimetals) are very broad.The characteristics of the elements in these families are determined primarily by the number of electrons in the outer energy shell.
