Just finished taking NBME 15...I'll agree with everyone else as well and say that there were way more UWorld style questions. A lot more vague symptoms too (way less "buzzwords") and more questions (I thought) where I was wavering between a couple answers. A lot more questions than the other NBME that I just straight up guessed on.

Still, based on the functional and structural biology, I don't see it as a "protein processor" either, much like a similar question from another NBME test that reworded the best answer to "protein processing" to describe the end result of pol gene translation (e.g., ligases, integrases, etc). That was a tricky little bastard.
