Loved the price to rent this textbook for my biology class. It is the same thing and same diagrams as the 10th Edition (compared side by side with another student) the pages are just slightly off by one or two, not bad at all. Do not waste your money on the 10th Edition when the 9th is a lot cheaper to rent and is practically the same thing.

It's an internet class, and I haven't taken Biology since high school so I feel like I'm starting from scratch. My school has chosen to use a free e-textbook. While the cost savings is much appreciated, that thing is so choppy and confusing. I got the Campbell's 10th edition book from a seller for \$14.20.
