You will note that significance levels in journal articles—especially in tables—are often reported as either "p > .05," "p < .05," "p < .01," or "p < .001." APA style dictates reporting the exact p value within the text of a manuscript (unless the p value is less than .001).

### APA Tables and Figures 1 // Purdue Writing Lab

Although these tables generally follow APA format, there are a few important exceptions. For example, when multiple models are compared, say in hierarchical multiple regression, the NCFR journals present the models in adjacent columns rather than stacking them in separate sections of the table as recommended by APA format .

### APA Tables and Figures // Purdue Writing Lab
