operative API standard or, where an extension

has been granted, upon republication. Status of the publication can be ascertained from the API Downstream Segment [telephone (202) 682-8000]. A catalog of API publications and materials is published annually and updated quarterly by API, 1220 L Street, N.W., Washington, D.C. 20005.

Improving API 1104 for the Twenty-second Edition - 2017

API noted that 2218 was developed and intended to be a pool fire standard.^{1,2} They also noted that the 2218 task group decided that the best way to ensure the new

information on jet fire scenarios would be disseminated to fire protection experts was by adding a new Annex to provide information and guidance.

The latest API Standard 2000 7th edition represents minor changes to the previous edition. However, it is important to recognise that the changes set forth by API Standard 2000 6th edition remain intact. Although the 5th edition continues to be widely used for sizing blanketing and

API | RP 2218

Fireproofing Practices in Petroleum and Petrochemical Processing Plants 1 Introduction
1.1 PURPOSE This publication is intended to provide guidance for select-ing, applying, and maintaining fireproofing systems that are

designed to limit the extent of fire related property loss in the petroleum and petrochemical industries. 1.2 RETROACTIVITY

API RP 2218, 3th Edition (2013)

However, API standard also states that determination of fireproofing should involve risk-based evaluation and assessment of the probability of an incident materializing. API RP 2218 is under the revision now and the draft version of the revision also does not suggest to provide fireproofing against the jet fire.
