B1.1 Keeping healthy A combination of a balanced diet and regular exercise is needed to help keep the body healthy. Our bodies provide an excellent environment for many microbes which can make us ill once they are inside us. Our bodies need to stop most microbes getting in and deal with any microbes which do get in. Vaccination can be used to prevent infection.

**Biology BIOL1 (Specification 2410) Unit 1: Biology and Disease**

It's the study of all life that inhabits the world around us, looking at topics like how we reproduce, what organs we are made up of and how they function and even what the small building blocks in our bodies, the cells, also do. It looks at all the animals and plants living in the world as well, and today we're going to be testing your knowledge on all of it to see what you've learned!
