ARCHAEOLOGY: THE BASICS 2 describe and analyse the objects and monuments of the past. Most importantly we have also developed a way of thinking, which these methods assist, that represents a scheme of things long gone. This is the excitement of archaeology. Discovering unplundered tombs is one thing, but to explore our capacity to

Archaeology: The Basics - Clive Gamble - Google Books
Archaeology is exciting. The excitement comes from using our archaeological imagination to go where we can never travel, to the past, and to think about time and objects in very different ways from those of our everyday experience; to understand better who we are by knowing where we have come from.
