Philosophy of Architecture (Stanford Encyclopedia of ...

Architecture is an art form of the eye, the hand, the head and the heart. The practice of architecture calls for the eye in the sense of requiring precise and perceptive observation. It requires the skills of the hand, which must be understood as an active instrument of processing ideas in the Heideggerian sense.

The Role of Architecture in Humanity's Story - Thought ...

Rustication is a range of masonry techniques used in classical architecture giving visible surfaces a finish texture that contrasts with smooth, squared-block masonry called ashlar. The visible face of each individual block is cut back around the edges to make its size and placing very clear. In addition the central part of the face of each block may be given a deliberately rough or patterned ...

Rustication (architecture) - Wikipedia

Ancient Greek architecture came from the Greek-speaking people (Hellenic people) whose culture flourished on the Greek mainland, the Peloponnese, the Aegean Islands, and in colonies in Anatolia and Italy for a period from about 900 BC until the 1st century AD, with the earliest remaining architectural works dating from around 600 BC.. Ancient Greek architecture is best known from its temples ...

Gaudí's work is the most inventive, daring, and flamboyant of Catalan Modernisme (the Catalan strand of Art Nouveau) designers, but it is not uncharacteristic of the movement as a whole. Gaudí's work is highly personal, in part due to his devout Catholicism, a faith that became increasingly fervent as his career progressed.

Vernacular architecture might not win prestigious awards for technological innovation or design, but this subset of architecture makes up an integral part of buildings as a whole. These homes and structures are the result of local ingenuity and are significantly more socially conscious and sustainable than some more elaborate builds.
