your Audi, we recommend scheduling a service appointment as soon as possible. Common areas to check for leaking engine oil include the oil pan drain plug, oil pan gasket, and valve cover gasket.

Coolant Leak....safe to drive? - AudiWorld Forums

Solution for water in the passenger side footwell. There is ducting in the cowl that is supposed to prevent water from entering, but the seal had either lost its seal or the piece had warped enough to no longer seal. I temporarily fixed the problem by adding some RTV where the seal mates, but went ahead and ordered a new duct as it was only 20 bucks...

Audi Water Leak Diagnosis

I have a 2006 A4 that has gone from a slow coolant leak into refilling every two days leak. I took it in to a random mechanic (usually go to Audi). I was told I needed some heater hoses, water connector, and turbo coolant line (I may have butchered those terms, but that's what I remember him saying).

Oil leak update Audi A6 2006

Audi A4 (1995 - 2000) - 1997 Water getting inside the car. During the recent cold snap I noticed an excess of mist on the inside of the car. Today I discovered the drivers side rear footwell absolutely soaking wet. I dried it out the best I could and then played a hosepipe down the rear door to try to see if that was the place it came from.
