In the world of electrical contracting, you have to estimate and submit bids in order to win projects and stay in business. ... experience and are more likely to make mistakes during the estimating process and project execution should you win the electrical construction project ...

Electrical Estimating In 3 Minutes.

When I was asked to write 1,200 words on how to train an estimator I thought, "This should be easy, I train estimators every day." After a few hours of organizing my thoughts and writing my outline, I realized 1,200 words will barely scratch the surface. At best, it might be the introduction to a book. Any attempt to educate someone, even at the most basic level, in 1,200 words would be ...
