You can browse the library by category (of which there are hundreds), by most popular (which means total download count), by latest (which means date of upload), or by random (which is a great way to find new material to read).

Troubleshooting Guide - Haldex

The Bendix® M-32 and M-32QR pressure modulator valves (PMV) are operated by the EC-60 controller to modify driver applied air pressure to the service brakes during ABS or ATC activation (See pages 6-8). The PMV is an electro-pneumatic control valve and is the last valve that air passes through on its way to the brake chamber.
