Cattleyas, Vandas, Dendrobiums IN BLOOM - Page 22

Vanda orchids bloom two to three times a year, with each bloom cycle lasting up to six weeks. In contrast, the popular cattleya and cymbidium orchids only bloom once a year, but their ease of care make them popular choices for novice growers.

How to Grow and Care for Cattleya Orchids

Cattleya Orchid – Care Guide & Pictures The “ Queen of Orchids ” is a variety loved by novice and experienced growers alike. She has a beautiful fragrance, expansive blooms, and striking colors.

Blooming Cattleya Pictures Orchids Orchids

The Cattleya is a sympodial orchid which means that it grows pseudobulbs along a central horizontal rhizome. Each year a Cattleya orchid will grow one or more new pseudobulbs from which the bloom for that season will come. A Cattleya will not bloom on old pseudobulbs yet those pseudobulbs will provide strength for the plant.
