**How on earth did BMW ever get away with putting a basic sound system into a high end premium car, being the E39, was it crap when new, or has it gone bad over time, are the later e60 and f10 better. The e39 radio was built in from new possibly to discourage theft, but sound quality wise a step back from the previous e28 and e34 models.**

**I have a '97 E39 from Germany. I'm planning on upgrading my sound system and I was wondering if my car has a built in factory crossover. It has 6 speakers (2 on the front doors, 2 on the rear deck, and 2 tweeters on the front door pillars). I have a BMW factory stereo with FM and a cassette deck only. No CD changer.**

**E39 Sound System Upgrade Advice Requested | Bimmerfest BMW**  
**The MKI computer started this generation of BMW navigation systems. The MKI first appeared in 1994 in the E38 7-series, and was moved into the E39 in 1995. The MKI is the slowest system out of the four. It did the job, but took its time and lacked a lot of functionality as well as graphical features when compared to the later models.**

**BMW Sound System Upgrade: Speakers & Amplifier | BimmerTech**

**I've done a number of E39 audio upgrades. With the BMW E39 5-series, you have 5.25"/130mm speakers in the parcel shelf on DSP cars and in the rear doors on most non-DSP cars. In the front, you have a 5.25"/130mm woofer in the door - inside a molded ABS sealed enclosure (rare in door speakers - more on this in a bit).**
