2 INTRODUCTION too happy to give you the benefit of his or her experience. This book is based on the principle that boating is fun, and that the fun can be enhanced if we don't make it too expensive,

Boatbuilding With Plywood

For most amateurs, plywood is the material of choice. Plywood is one of the cheapest and easiest building materials, one that the average do-it-yourselfer is both familiar and comfortable with. Plywood is also, pound for pound, stronger than steel. Because of its high strength to weight, plywood construction yields a boat that is much lighter [ ]
