Lpbri wrote:I don't think on a 747-400 you can start 2 at a time. Normally you would. And normally at my ex airline you would start 3 and 4 at the same time then 1 and 2. Yup...the only time we start one at a time is an air cart or a crossbleed start. Otherwise the APU has more than enough bleed air pressure to start two at once.

### 747-441 Operations Manual

I fly the pmdg 747 and use their normal procedures checklist, however I wondered if anyone out there had any electronic copies of real world airline checklists for a Boeing 747 400. If so would you be able to provide a link to them or pm me with where I can get them from? Thanks Mark
