NPTTEL :: Civil Engineering - NOC:Reinforced Concrete Road ...
The main parameter of an arch is the rise to span ratio, r/l (1/6 to 1/10). From economic point of view it is attempted to coincide the center of pressure of a given load with center of line of the arch. Cable Stayed Bridge: Cable stayed bridges are ideal for spanning natural barriers of wide rivers,...

Bridge engineering - SlideShare
Both bridges have two roughly
25m spans, but one bridge is an
integral reinforced concrete
construction, while the other one
is a prestressed concrete
construction with bearings on the
abutments.
