fabricated iron and steel articles (including certain castings) in a zinc melt (containing not more than 2% of other metals).

Guidance Document Hot dip galvanizing to EN ISO 1461 and ... rights. ISO shall not be held responsible for identifying any or all such patent rights. ISO 1461 was prepared by Technical Committee ISO/TC 107, Metallic and other inorganic coatings, Subcommittee SC 4, Hot dip coatings (galvanized, etc.). This third edition cancels and replaces the second edition (ISO 1461:1999), which has been technically ...

BS EN ISO 1461:2009

The table then gives the requirements of ISO 1461, and the thickness of steels whose A123 requirements overlap. Notice the ASTM requirements for coating thickness on wire never meet the ISO standards. As has been said previously, the differences between ISO 1461 and the combination of ASTM A123 and A153 are rather small.
