Welding Procedure Qualification Certificate (EN ISO 15614-1)

ISO 15614 Pt. 1 also groups steel and nickel alloys into families with similar properties but is somewhat less prescriptive than the ASME code in that, provided alloys have similar chemical compositions and mechanical properties, the material specification is not relevant - for example a plain carbon steel with less than 0.25%C and a minimum specified yield strength less than 460MPa falls ...
