Expected Tax Rate At Retirement: This has a huge impact on how much money you need to retire early. There is no way to predict what tax rates will be in 5, 10, 20, or 30 years, but the commonly held belief is that your tax rate will likely be lower when you retire (and are making little to no income). I typically use 20% or 25% to be safe.

How Much Do I Need To Retire? | Retirement Living | 2020

The age you plan to retire can have a big impact on the amount you need to save, and your milestones along the way. The longer you can postpone retirement, the lower your savings factor can be. That's because delaying gives your savings a longer time to grow, you'll have fewer years in retirement, and your Social Security benefit will be higher.

Retirement calculator - MSN Money

Getting an early start on retirement savings can make a big difference in the long run. By saving an extra \$76 per month, this 25 year-old can close the \$265,261 shortfall projected by SmartAsset's retirement calculator.
