Canada - Oil and Gas | export.gov

The Canadian petroleum industry developed in parallel with that of the United States. The first oil well in Canada was dug by hand (rather than drilled) in 1858 by James Miller Williams near his asphalt plant at Oil Springs, Ontario. At a depth of 4.26 metres (14.0 ft) he struck oil, one year before "Colonel" Edwin Drake drilled the first oil well in the United States.
