Carl Rogers - the PCA  
Carl Rogers believed that for a person to achieve self-actualization they must be in a state of congruence. This means that self-actualization occurs when a person's ' ideal self ' (i.e., who they would like to be) is congruent with their actual behavior (self-image).

Why Carl Rogers' Person-Centered Approach Is Still ...

Person-centered therapy, also known as person-centered psychotherapy, person-centered counseling, client-centered therapy and Rogerian psychotherapy, is a form of psychotherapy developed by psychologist Carl Rogers beginning in the 1940s and extending into the 1980s. Person-centered therapy seeks to facilitate a client's self-actualizing tendency, "an inbuilt proclivity toward growth and therapist congruence, an empathic understanding.

What is the Person-Centred Approach?

The person-centered approach is a positive psychology. But now that positive psychology is with us, Rogers work seems more relevant than ever. His ideas on the good life are still leading the way.

Effectiveness of Client-Centered Therapy

Person-Centered Spirituality On his journey to developing person-centered theory and therapy, Carl Rogers renounced traditional Christianity. Given that all religions, including Christianity, can be viewed as directly imposing judgmental conditions of worth, Rogers's renouncing Christianity as antithetical to his beliefs is not surprising.

Carl Rogers - Wikipedia

Carl Rogers encouraged counselors to use a non-confrontational manner with their clients. True Person-centered therapy groups emphasize the unique role of the group counselor as a leader.

CARL ROGERS ON PERSON-CENTERED THERAPY understanding and unconditional positive regard is to a minimal degree achieved. Congruence, unconditional positive regard, and empathic understanding are the three core conditions of the person-centered approach to psychotherapy. In A Way of Being (1980), Rogers explains what he means by these three terms.

Carl Rogers' Core Conditions Carl Rogers' Core Conditions ...

The origins of person-centred care are in humanistic psychotherapy. Carl Rogers (1951) suggested we develop a view of ourselves in childhood based on our interactions with important others. If we are loved, valued and respected, we feel worthy of love, value and respect. Rogers called this unconditional positive regard. If we are only valued for behaving in a certain way, we learn to hide some conditional positive regard leads to a lack of congruence.

Carl Rogers On Person Centered

Rogers (1959) called his therapeutic approach client-centered or person-centered therapy because of the focus on the person's subjective view of the world. One major difference between humanistic counselors and other therapists is that they refer to those in therapy as 'clients', not 'patients'.
