melatonin, a hormone that lowers body temperature, making us sleepy. When study volunteers drank an ounce of tart cherry juice concentrate in the morning and again at night, they slept more soundly. Even better: sipping the tart concentrate may provide an alternative to a melatonin supplement.

Cherry (2010) - IMDb

Cherries are pigment rich fruits. These pigments, in fact, are polyphenolic flavonoid compounds known as anthocyanin glycosides. Anthocyanins are red, purple or blue pigments found in many fruits and vegetables, especially concentrated in their skin, known to have powerful antioxidant properties.
