All-New 2020 Silverado 2500 HD & 3500 HD Heavy Duty Trucks

The Duramax diesel is susceptible to fuel starvation and getting air in the fuel lines. This can be contributed to the fuel filter housing design and the fact that the Duramax does not use a lift pump. Rather, the high pressure fuel pump (injection pump) is responsible for vacuuming fuel from the tank.

Duramax Electrical Problem Video 1

All about the Diesel Engines on the GMC Duramax Fundamentally, diesel engines operate much like a gasoline engine. Within the engine itself, a controlled combustion within a cylinder chamber causes pistons to move up and down, which in turn causes a crankshaft to rotate. That force is essentially the power that ultimately moves your truck.
