Stocks on the Move outlines a rational way to invest in the markets for the long term. It will walk you through the problems of the stock markets and how to address them. It will explain how to achieve twice the return of the stock

markets at considerably lower risk.

How to find stocks on the move with a better momentum

...

Stocks on the Move is a momentum strategy that identifies stocks that have strong momentum. Stocks that rank high are in a strong uptrend. The ranking is the heart of the system. Clenow uses statistical calculations based on prior price action to generate a rank based on what is called the Modified Slope Value.

My version of Andreas Clenow Momentum Strategy

The book was *Stocks on the Move: Beating the Market with Hedge Fund Momentum Strategies* by Andreas Clenow. It is a great book that is easy and fun to read in spite of its somewhat intimidating title. Add it to your reading list you will definitely learn something. More information about Andreas and exponential regression

Andreas F Clenow Momentum. Leigham Springer Sutton. edit. 0. Hey guys just thought I'd share Andres F. Clenows momentum strategy from his book stocks on the move. Here is the strategy: Buy on Wednesday, if the spy is above the 200 SMA, the stock is above the 100 SMA and the security has not gapped in price more or equal to 15% over the past

...

Following the Trend

It helped me complete my algorithm. I buy stocks every day if they make a new 500 day high. I limit it to 10 stocks per day, and rank the stocks in the basket by their momentum scores. I sell the stocks if they cross below their 15 day ATR trailing

stop loss. The stocks are weighted by their APR. I just thought I would show the site my work ...

Momentum Strategy from "Stocks on the Move" in Python ...

This means the algorithm correctly calculates it must purchase 50 shares, worth around \$3000. The actual purchase takes place using back adjusted prices, which is around \$800 at the time. This is because BTU had a 15-1 stock split in 2015. In other words, the algorithm is trying to buy 50...

Stocks on the Move: Beating the Market with Hedge Fund ...

Clenow's Stocks on the Move strategy is a sophisticated long-only momentum strategy, using the full S&P 500 as its universe. Stocks from the universe are selected by their volatility-adjusted momentum. Position size is determined by a risk-parity approach, assigning each stock a fixed risk budget until all capital is assigned.

Amazon.com: Stocks on the Move: Beating the Market with ...

It appears that if we follow the strategy as detailed in the book, we will most likely end up buying at or near the top range and the stocks may be due for a correction because to reach at the top rankings the stock has to perform well during

immediate past and we all know that after a move, generally stocks either correct or take a pause.
