Sample Contests - Math League

Jay's math assignment was to do all the odd-numbered problems from 1 up to and including 25. When he finished the problems he was supposed to do, he decided to do 5 more problems. Jay did a total of problems. Hector has 2 pennies, 2 nickels and 3 dimes. Wonwoo has twice as many pennies, 5 times as many nickels and 3 times as many dimes as ...

5th Grade Continental Math | Problems and Solutions

answer. If you are not sure of an answer to a question, try these tips: Cross out the answers you know are not correct and choose among the rest. Read through all the answers very carefully, and then go back to the question. Sometimes you can pick up clues just by thinking about the different answers you have to choose from.
