Autonomous Combat Robot - IdeaExchange@UAKron

Complete Control's ABC Season 2 appearance. Complete Control was a middleweight robot that competed in Seasons 2.0 through 5.0 of BattleBots, as well as returning for both seasons of the reboot on ABC. It had a unique weapon system, with a clamp and a lifter both using the same system so it could grab, lift, and even overturn opposing robots.

Are robots replacing human soldiers? | HowStuffWorks

The autonomous combat robot will outperform its human driven opponents by following a variety of combat algorithms. While running autonomously, it will use sensors to detect its environment and the opponent. While the weapon system is reaching full speed, the combat robot will follow an avoidance and escape algorithm.
