L On if the local set point is being used – see Section 4.2 in Programming Guide. R On if the remote set point is being used – see Section 4.2 in Programming Guide. (Both L and R off if dual set point or dual fixed set points are used – see Section 4.2 in Programming Guide).

The Commander (TV series) - Wikipedia

clearly established the fact that inspections were a commander's -- and not an IG's -- responsibility. The Army leadership believed that commanders had come to rely on the AGI as the primary method of assessing their unit's strengths and weaknesses. The Command Inspection Program (CIP) sought to remedy this problem. In effect, the CIP
