Scope: To support the federation model of the CVE Numbering Authority (CNA) program, the Cybersecurity Infrastructure Security Agency (CISA) will become the Root CNA for industrial control systems (ICS) and medical devices. This function will recruit current and new ICS and medical device vendors to become CVE assignors of CVEs through the existing CISA task area.

Community Vulnerability A Root Of Disasters Experience ...
Vulnerability is often described in terms of an individual's characteristics (gender, age, income, level of education). However, we must also identify the conditions that result in vulnerability (Birkmann 2013). A view of the progression of vulnerability that has stood the test of time is the Pressure and Release Model developed by Blaikie et al.

tackling the root causes of vulnerability, such as poverty, poor governance, discrimination, inequality and inadequate access to resources and livelihoods. Physical, economic, social and political factors determine people's level of vulnerability and the extent of their capacity to resist, cope with and recover from hazards.

CISA Root Common Vulnerability and Exposures Numbering ...
Actions to support prevention and vulnerability reduction need to be increased, and particularly in poor communities where vulnerability is greatest. A root cause of vulnerability is poverty. The rich may have more to lose, but the poor are repeatedly the ones who suffer most, are more exposed to risk, and are living in unsafe places and in unsafe homes.

Vulnerability | PreventionWeb.net
Oklahoma City Community College. COMPUTER S. COMPUTER S 1413. ... QUESTION 110 A company researched the root cause of a recent vulnerability in its software. It was determined that the vulnerability was the result of two updates made in the last release. Each update alone would not have resulted in the vulnerability.

The underlying factors contributing to vulnerability
In the V+ model, economic inequality is a major root cause leading to vulnerability. Social stratification, a root cause, refers to large differences in social status for categories of people or populations in a community. Another root cause, structures of domination, refers to long-standing patterns of power of one group or category of people ...
