Compendium of Philippine Environment Statistics ...

Compendium of Philippine Environment Statistics. The compendium is a compilation of statistical information collected from data produced by various government agencies and from data available in different statistical publications.

Philippine Statistics Authority | Republic of the Philippines

The compendium presents data on the following components of our natural environment namely: Flora; Fauna; Atmosphere; Land and Soil; Mineral and Energy Resources; and Human Settlements. The first six concern our natural resources while the last one deals with the “habitat” or environment of human beings encompassing both rural and urban areas where man settles to live.
