Vaccines Could Be the Answer for Conquering Rheumatoid Arthritis. "Current therapies only treat the symptoms and slow the progression of disease," said Professor Ranjeny Thomas, head of the autoimmunity division at the University of Queensland Diamantina Institute in Australia. But this new vaccine will do more than that, by suppressing the immune system right off the bat.

Conquering Rheumatoid Arthritis: The Latest Breakthroughs ...

Doctors used to think that the placebo effect was psychological. Now scientists have direct evidence that the placebo effect is actually physical. In other words, the expectation that a pill or procedure will produce a medical benefit can trigger the same neurological pathways of healing as "real" medication.
