Consequentialist Decision Theory and Utilitarian Ethics
Consequentialism and utilitarianism are commonly used in decision making. It is natural and logical for a person to think of the consequences of their actions before acting. However, these ethical theories have their weaknesses and should perhaps be applied in combination with other normative ethical frameworks.

Utilitarianism: Crash Course Philosophy #36
In the utilitarian approach, decisions are chose based on the greatest amount of benefit obtained for the greatest number of individuals. This is also known as the consequentialist approach since the outcomes determine the morality of the intervention. This approach could lead to harm to some individuals while the net outcome is maximum benefit.
