Crisis intervention differs from other counselling interventions in that it focuses on short-term strategies to prevent damage during and immediately after the experience of trauma. Crisis counselling is often followed by counselling for long term improvement of the client's mental health and personal wellbeing.

Crisis Intervention Strategies

"Crisis intervention can walk people through the process of coming to terms with a new normal." A person's initial reactions to trauma are normally shock and denial, followed by a "cataclysm of emotion," Marling says, meaning that at one moment a person can both struggle with the loss of a loved one, for example, and simultaneously feel angry at that person for leaving, and guilty for ...

What Is A Crisis Intervention? - Vertava Health

There are various approaches to supporting individuals in crisis, for example, using non-counseling methods such as psychological first aid, more technical models involving strategies for listening, assessing and acting in crisis intervention, or activities related to responding to trauma. The guidance in this section describes interventions that require specific skills, development training ...
