The 20 Meridians and their Consciousness

And so it began. Where it will end is anyone's guess, but Cycles of Time: An extraordinary new view of the universe is the next stop. The ideas in the book came to him five years ago, when he was worrying about the state of the universe. According to the standard view, dark energy will lead the universe into an eternal accelerating expansion.

Cycles of Time: An Extraordinary New View of the Universe ...

Cycles of Time: An Extraordinary New View of the Universe is a science book by mathematical physicist Roger Penrose published by The Bodley Head in 2010. The book outlines Penrose's Conformal Cyclic Cosmology (CCC) model, which is an extension of general relativity but opposed to the widely supported multidimensional string theories and cosmological inflation following the Big Bang .

Roger Penrose: Non-stop cos - Pennsylvania State University

Moreover, the cycles can continue indefinitely into the past and the future, and the solution is an attractor, so it can provide a complete history of the universe. As Richard C. Tolman showed, the earlier cyclic model failed because the universe would undergo inevitable thermodynamic heat death.

Book Review: Cycles of Time - WSJ

Each of the 20 meridians has a specific function or domain in cultivating consciousness, health and moving through time from birth to death in a process that is seen as spiritual in nature. The Extraordinary Meridians are profound and ancestral, their influence vast and mysterious, providing foundational support to the system, each one in it ...
