Toyota Motor Corporation is an industry leader in product development lead time while using fewer engineers than its U.S. competitors. It has also shown remarkable consistency in market share growth and profit per vehicle, which led to cash reserves of \$21 billion, exceeding those of the "Big Three" automakers combined.<sup>1</sup> The Toyota Production System (TPS), dubbed "lean manufacturing ...

What Is Rational Organization Theory? | Chron.com  
Organization Design is a process for shaping the way organizations are structured and run. It involves many different aspects of life at work, including team formations, shift patterns, lines of reporting, decision-making procedures, communication channels, and more.

Richard L. Daft - Tehran

Although the phrase "rational organization theory" may lead some people to think in terms of organizational structure or design, the term actually refers to a decision-making framework. The rational model says that businesses are structures designed to achieve specific goals in logical and predictable ways. Both logic ...
