## **Daily Life in Ancient China by Mu-chou Poo**

In China, as in other countries, an important determinant of the affluence of a household was the dependency ratio - the number of nonworkers supported by each worker. In 1985 the average cost of living for one person in urban areas was ¥732 a year, and the average state enterprise worker, even with food allowance and other benefits added to the basic wage, had difficulty supporting one other ...

China loves Westerners so much that they're building entire replicas of European and American towns right on their own turf. In my city, there are currently plans for at least two Italian-style towns full of luxury villas, despite the fact that no one will ever live in them. But that's not a new problem in China.
