One way that NetApp offers you a shortcut in using Amazon S3 for file system storage is with Cloud Volumes ONTAP (formerly ONTAP Cloud). Cloud Volumes ONTAP has a number of storage optimization and data management efficiencies, and the one that makes it possible to use Amazon S3 as a file system is data tiering.*

This week I had the task of installing VMware ESXi 7 on a Cisco UCS blade booting from SD Cards.. Once ESXi was installed and added into vCenter, I saw the warning 'No coredump target has been configured.Host core dumps cannot be saved'. I had a quick google search and also opened up a support ticket with VMware.*

*VMware ESXi 7 No CoreDump Target Has Been Configured.
