### **Delco Moraine Brake Caliper Part**

GM Original Equipment Brake Calipers are hydraulic components mounted over the brake rotor. The caliper acts as a clamp to press the brake pads against the brake rotor when the brakes are applied. These original equipment disc brake calipers are manufactured to fit your GM vehicle, providing the same performance, durability, and service life you expect from General Motors.

GM used “non-high performance” 1 piston delco morraine calipers and starting in 1988 (in only about 4 cars according the thirdgen.org), the 2 piston 1LE “high performance” calipers. The delco morraine calipers were fitted to 10.5" disc rotors and the “high performance” to 12" discs (I think it was more like 11.6" to be exact, but it's commonly referred to as a 12" rotor.)
