### **Demand And Supply Integration Above The Treeline**

Supply and demand (sometimes called the "law of supply and demand") are two primary forces in markets. The concept of supply and demand is an economic model to represent these forces. This model reveals the equilibrium price for a given product, the point where consumer demand for a good at various prices meets the price suppliers are willing to accept to produce the desired quantity of that good.

### **Why Demand/Supply Integration Is the Key to World-Class ...**

So, if the price is above the equilibrium level, incentives built into the structure of demand and supply will create pressures for the price to fall toward the equilibrium. Now suppose that the price is below its equilibrium level at \$1.20 per gallon, as the dashed horizontal line at this price in Figure 3 shows.
