Development Language Berko Gleason Jean Lise Menn (née Lise J. Waldman, born December 28, 1941, in Philadelphia) is an American linguist who specializes in psycholinguistics, including the study of language acquisition and aphasia.She is currently Professor Emerita of linguistics and was a fellow of the Institute for Cognitive Science at the University of Colorado at Boulder in Boulder, Colorado until her retirement in 2007.

Lise Menn - Wikipedia
Developmental linguistics – study of the development of linguistic ability in individuals, particularly the acquisition of language in childhood. Evolutionary linguistics – study of the origin and subsequent development of language by the human species. Historical linguistics – study of language change over time. Also called diachronic ...

Outline of linguistics - Wikipedia
Language Development: The development of language has many facets to explore. This program looks at how developmental psychologists investigate the human mind, society, and culture by studying children 's use of language in social communication. With Dr. Jean Berko-Gleason of Boston University and Dr. Ann Fernald of Stanford University.
